Inocetia Sasa

18/20

Module #	671101000-KM-08:
NQF Level	level 4,
Notional hours	50
Credit(s)	Cr 5
Occupation or Specialisation	671101000: Occupational Certificate: Electrician
Associated Occupation	671101: Electrician

LOW VOLTAGE PROTECTION

FORMATIVE ASSESSMENT

MI

About the Formative Assessment	
Purpose	The purpose of this Formative Assessment is to evaluate learners understanding on the specific outcomes and/or assessment criteria and prepare the learner for the summative assessment. This will show that the learner is ready to be assessed.
Context	This assessment represents the Formative Assessment component and should be completed in the classroom/training room.
Resources	The following are resources needed for this assessment: 1. Learner Guide; and 2. Assessment Preparation.
Instructions to Facilitators	Facilitators will be required to: • Explain the completion of the Formative Assessment to each learner; and • Interview the learner on similar questions, should he/she not be able to write.
Instructions to Learners	Learners will be required to: • Complete the Formative Assessment as per the instructions; • Ensure that all questions are completed; • Ensure that the completion of the workbook is their own work; • Ensure that all annexure are attached to the workbook and clearly referred to;
Assessment Time	Learners are required to complete this assessment within the allocated time frame/hours.

ASSESSMENT APPEAL APPLICATION FORM

LEARNER'S NOTICE OF ASSESSMENT APPEAL

TO: The Internal Moderator

A meeting with the internal moderator is hereby requested to discuss the outcome of my assessment.

Internal moderator name _____

Date of submission: _____

Name of employee assessed: _____

Name of Assessor: _____

Date of feedback session: _____

Grounds for Appeal

No	Tick the applicable ground(s) for appeal	Tick
1	The assessment did not follow the laid down procedure	
2	Not all evidence available was taken into account during the assessment	
3	The assessor was not a subject matter expert nor was a subject matter expert present during the assessment process	
4	The assessment was not according to the performance criteria and the range statement stipulated in the unit standard	
5	Not all the range items were available for the assessment	

Reasons for Appeal

No	Please give detailed reasons for the choice(s) above

LEARNING UNIT 1:

KM-08-KT01: Low voltage protection (100%)

Learning Outcome 1:	KT0101 Purpose and application of low voltage protection
Learning Outcome 2:	KT0102 Types of low voltage protection
Learning Outcome 3:	KT0103 Low voltage protection parameters and statutory requirements

Task	Questions Description	Marks
1.	Describe the operation and functions of different types of low voltage protective devices including overload relays, fuses, circuit breakers and earth leakage protection devices.	10

1) Operation and Functions of low-voltage protective devices

* low voltage protective devices are used to protect electrical circuits, equipments and people from faults such as overloads, short circuit, and electric shock.

1) Overload relays

* An overload relay protects motors against overheating caused by excessive current over a period of time.
* It works by sensing the increase in current and opening the control circuit when the current exceeds the safe limit.
* It's Main Function is to prevent Motor windings from burning out.

1) Fuses

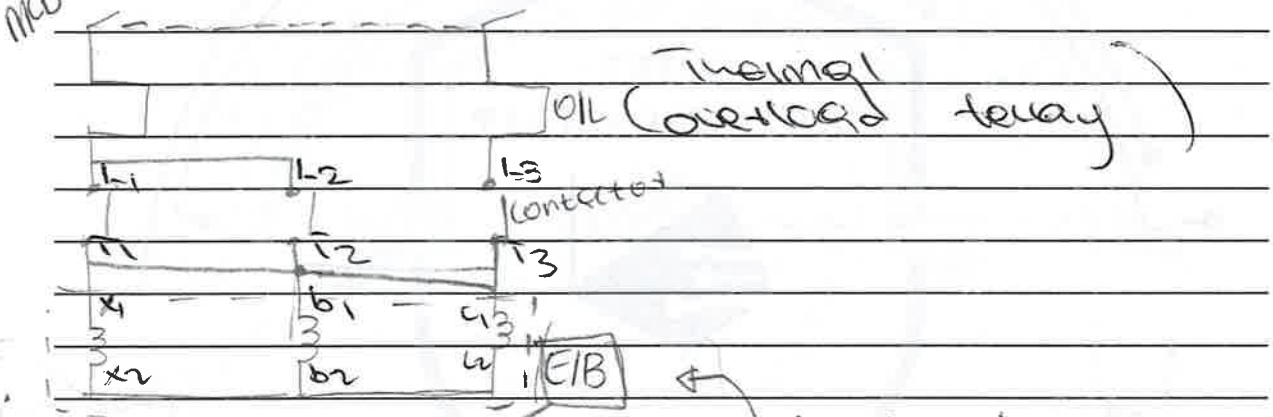

* A Fuse protects a circuit from excessive current.
* It contains a thin metal wire that melts when the current becomes too high.

M.I

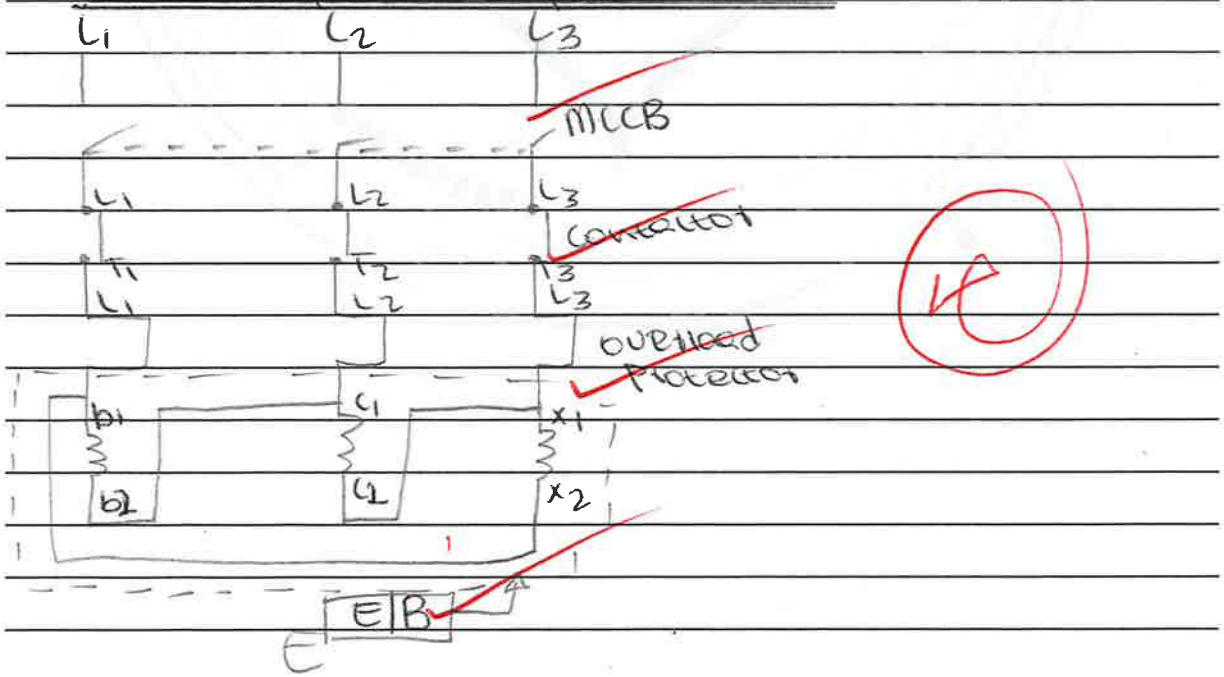

Task	Questions Description	Marks
2	Explain, with the aid of circuit diagrams, how single-and three phase electrical installations are protected.	10

1) Protection of a single-phase installation

* Fuse / circuit breaker
* earth leakage device
* overload protection

2) Three phase protection

SELF-ASSESSMENT

The learner must make use of the following self-evaluation checklist to rate himself against the learning outcomes of this particular training module in establishing the level of mastery of the information.

1. Not able to comply
2. Reasonable compliance (Not acceptable for final evaluation)
3. Able to comply fully

ASSESSMENT CRITERIA		1	2	3
1	KT0101 Purpose and application of low voltage protection			✓
2	KT0102 Types of low voltage protection			✓
3	KT0103 Low voltage protection parameters and statutory requirements			✓

Notification of Assessment

Assessment will take place as follows:

	Theory	**Practical**
Date		
Time	9H00	9H00
Venue	Employer premises	Employer premises
Instruments	Written assignment	Practical Assessment

Action required from candidate:

Candidate need to prepare him/herself to either write the Questionnaire or conduct Practical Assessment in order to achieve competency towards the relevant unit standard.
